APPLICATIONS

What VSM stands for

1. High performance

High company performance in form of high-performance abrasives and high-performance supply chains

Made in Germany – for applications worldwide

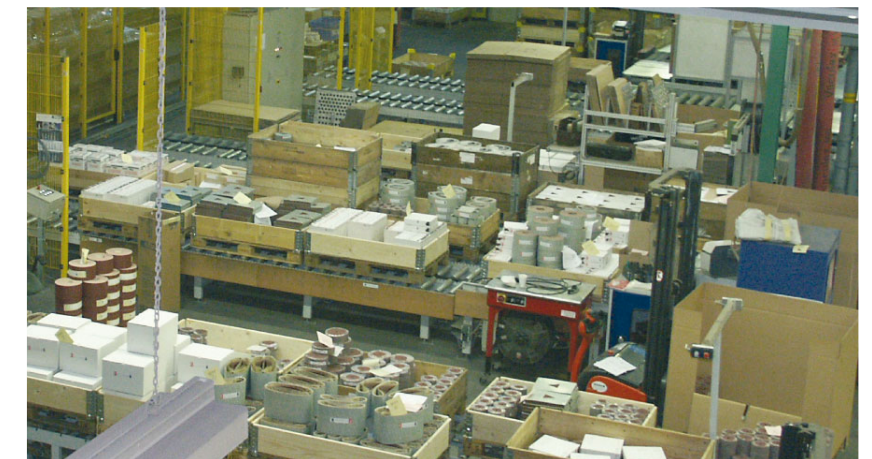

2. Competence

Extensive and profound know-how, good consultancy service, optimum solutions for customers

3. Reliability

Continuous company performance on a constantly high level regarding solutions to customer problems, quality reliability, delivery capability

Our objective is not a full product range for all applications. Our objective is a complete, profitable product range for our Strategic Market Segments.

Made in Germany
high-performing – competent – reliable
More than 140 years of experience
